PAGE 3 · FITTING AND APPROVAL

# Easy to fit, simple to approve.

## 1 Hold it in place

Hold the board where it will go. Check it is level and clear of any joints, cables or pipes.

## 2 Mark the holes

Mark through the four holes, or measure 177 × 264 mm between centres.

## 3 Drill and plug

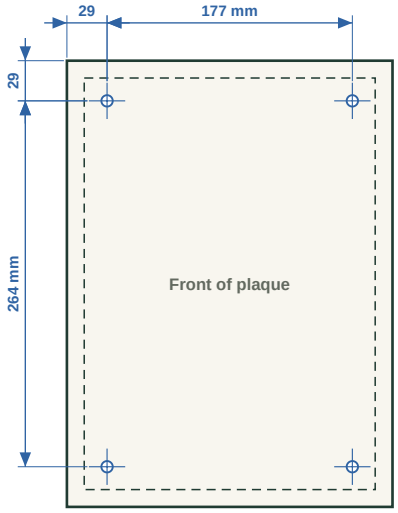

For brick or stone, drill and plug each hole. For wood, drill small pilot holes.

## 4 Fix the plaque

Screw it on firmly, without overtightening.

## 5 Add the caps

Cover each screw head with its decorative cap.

Hole positions, viewed from the front. Measure from the board's top-left corner: the plaque sits 12.5 mm in from each board edge. Standard fixings are included. Tell us what you are fixing to, so we can check the fixing arrangement. Wood backing suits indoor or sheltered displays.
