PAGE 3 · FITTING AND APPROVAL

# Easy to fit, simple to approve.

1 **Hold it in place**

Hold the board where it will go. Check it is level and clear of any joints, cables or pipes.

2 **Mark the holes**

Mark through the four holes, or measure 367 × 267 mm between centres.

3 **Drill and plug**

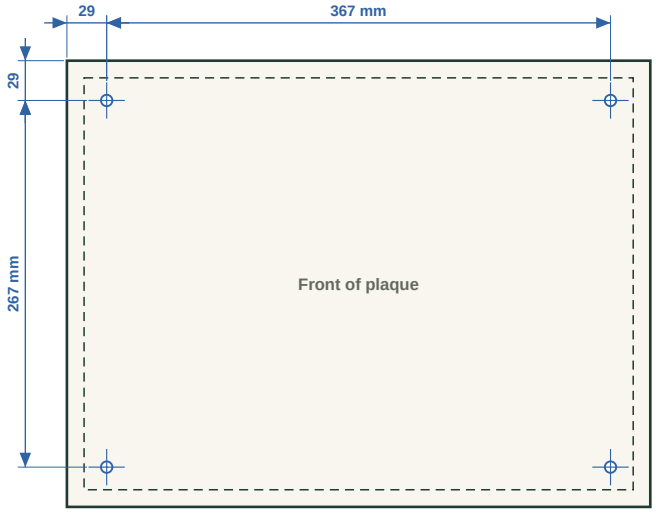

For brick or stone, drill and plug each hole. For wood, drill small pilot holes.

4 **Fix the plaque**

Screw it on firmly, without overtightening.

5 **Add the caps**

Cover each screw head with its decorative cap.

Hole positions, viewed from the front. Measure from the board's top-left corner: the plaque sits 12.5 mm in from each board edge. Standard fixings are included. Tell us what you are fixing to, so we can check the fixing arrangement. Wood backing suits indoor or sheltered displays.
