PAGE 3 · FITTING AND APPROVAL

Easy to fit, simple to approve.

1 Hold it in place

Centre it on the flat face of the backrest rail, level and clear of any existing bolts.

2 Mark the holes

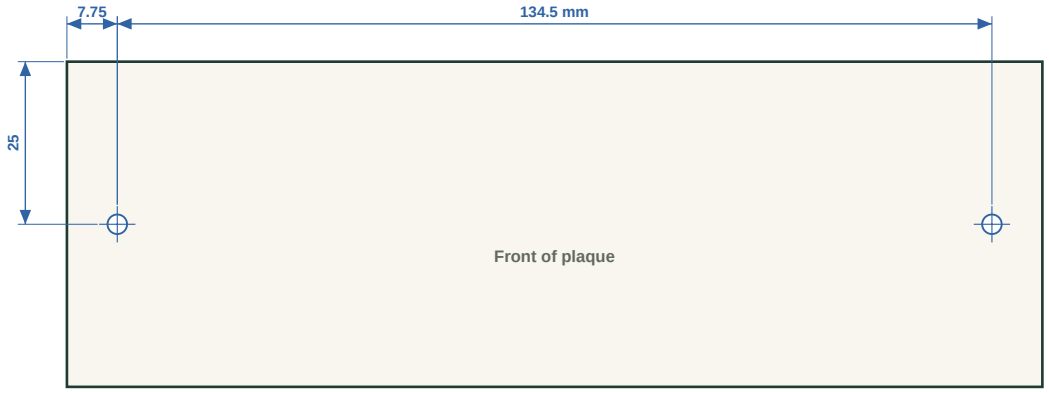

Mark through the two holes, or measure 134.5 mm between centres on a level line.

3 Drill pilot holes

For a timber bench, drill small pilot holes. Keep holes away from joints and edges.

4 Fix the plaque

Screw it on firmly, without overtightening, so it sits flat.

Hole positions, viewed from the front. Both holes sit on the centre line, 7.75 mm in from each end. Standard screw fixings are included. Tell us what you are fixing to, so we can check the fixing arrangement.
